
Mission

Mission

The National Foundation of Dentistry for the Handicapped makes oral health care accessible to needy individuals who are disabled, elderly or medically compromised by developing collaborations of resources for charitable, direct-service programs.

Vision

All individuals who are disabled, elderly or medically compromised without financial means or alternative access will receive necessary, substantive and maintainable dental care.

Values

The Golden Rule: Do unto others as you would have done unto you

-

Compassion…through mutual respect and dignity for all

-

Competence…through excellence (efficiency and cost-effectiveness)

-

Collaboration…through teamwork
